

NU ESSENCE SPA GUESTS: HOW TO PREPARE PRIOR TO VISITING THE SPA

PRE-BOOK YOUR APPOINTMENT

Please be patient as we are experiencing higher call volumes and your phone wait time may be longer than usual!

CHECK HOW YOU FEEL

Stay home if you feel ill - our staff is doing the same. We will ask every client to verify they are symptom free at check-in. We will happily assist you in rescheduling your appointments due to illness with no penalty or fees.

WASH AND SANITIZE YOUR HANDS

Use our hand-sanitizing station immediately upon entering the spa. Wash your hands immediately before and after each spa treatment - our staff is doing the same!

MASK GUIDANCE

Fully vaccinated team members and guests are no longer required to wear face masks within the spa. Face masks continue to be strongly recommended for guests and team members who are not fully vaccinated.

INCREASED SANITATION

Frequent cleaning and disinfecting of high-touch areas like check-in area, restrooms and door handles. Acrylic dividers installed at check-in area and manicure stations. Added sanitation between appointments in treatment rooms and at treatment stations.

RELAX

You've been waiting for this spa day, so please enjoy it! We are taking every extra precaution to keep our staff and guests safe! We can't wait to take care of you!

**The health and safety of our staff and
guests is our top priority!**
